SUMMARY

Full-stack software engineer with **8+ years** solving problems end to end — from **web and mobile apps** to **backend services, microservices, and cloud / DevOps**. I've shipped **30+ products** for teams worldwide, owning **architecture, delivery, and reliability** (React, React Native, Node.js, Go, Rust). I also bring **AI/LLM** and **Web3/Solana** depth when a problem calls for it.

CORE EXPERTISE

- Problem solving & system design
- Web apps: React, Next.js, TypeScript
- Mobile apps: React Native (iOS/Android)
- Backend & APIs: Node.js, Go, Rust
- Microservices & real-time (WS/SSE)
- DevOps & cloud: Docker, K8s, AWS/GCP
- Databases: PostgreSQL, MongoDB
- AI/LLM integration & Web3 / Solana

SERVICES

- Full-stack web & mobile app development
- Backend, APIs & microservices
- System architecture & technical leadership
- DevOps, cloud infra & CI/CD
- AI/LLM features & Web3 engineering
- Team mentoring & code review

SELECTED WORK

ProntoMigo — Multi-service delivery marketplace — React Native, Node.js, Stripe Connect, live tracking.

MC² Finance — High-performance DeFi asset-management platform — Vue, Rust, Node.js, Web3, real-time.

Jeti — Location-based social platform — React Native, Node.js, Socket.io, Docker/GCP; led mobile team.

StudioX AI — Autonomous AI platform for enterprise operations — LLM agents + RAG.

**Users reached is illustrative — replace with your verified figure before distributing.*
